

## **DELTA AIR LINES: FLIGHT OPERATIONS INTERNSHIP**

### **For Aspiring Delta Air Lines Pilots**

#### **JOB SUMMARY:**

There are seven Flight Operations Internship positions available at the World Headquarters for Delta Air Lines in Atlanta, Georgia. This is a paid internship, including additional privileges such as standby travel anywhere in the Delta system. Each intern will be assigned individual duties; however, Flight Op interns will be cross-trained and expected to work as a team to complete all tasks. Due to the large volume of hands-on projects, the interns will learn about the industry and gain valuable life experience in addition to the occasional job shadow opportunity. Most duties are Flight Operations (pilot) based and are valuable to anyone with a long-term goal of becoming an airline pilot.

#### **RESPONSIBILITIES AND TASKS:**

A Delta Flight Operations Intern will work on such projects as: charter flight planning, processing CASS jumpseat approval letters, processing management pilot applications, assisting with the organization of training classes for Pilot Recruitment, etc. Interns will be trained how to operate the 777 or 7ER simulator in order to conduct simulator tours for various charities and high-value customers. Each intern will also be exposed to other departments, such as, Flight Safety, Operations Customer Center, Technical Operations, In-Flight Service, Communications, Labor Relations, etc.

#### **JOB QUALIFICATIONS:**

Intern candidates must be enrolled in an undergraduate degree program with an aviation discipline, have a competitive GPA, and be in good academic standing with the university. An intern must possess excellent communication skills, be able to process complicated issues quickly, and maintain confidentiality when dealing with sensitive information. Due to the technical nature of some projects, interns must demonstrate a competency in skills that include, but are not limited to, simulator tours, the collection and analysis of flight planning data, reading and summarizing new regulations, and the ability to quickly relate to the advanced jet environment. A viable candidate should be actively engaged in a student organization and in their community. They should also have a private pilot certificate and have approximately 150+ hours of total time. The ideal candidate should also have a CFI, or be working towards a CFI. An intern will need to have a comprehensive knowledge of Microsoft Outlook, Access, Word, Excel, and PowerPoint.
